SUSTAINABLE PRODUCTION

Walk With Us to the Future

Being engraved from soil, made and used in forms of brass, aluminum, steel and copper, metal is one of the major recyclable material sources that brings enduring utility and convenience to human life.

For us at HK MOON, the core mission of using recycled and sustainable metals is to reduce the demand for primary mineral mining, thereby preserving the environment through reduced CO2 emissions, minimized air pollution, and decreased water consumption.

At HK MOON Textile Co., Ltd., we are dedicated to using recycled brass and eco-friendly alloy materials to uphold our responsibility toward a promising, sustainable future. It is our greatest commitment to leave future generations with a greener planet and a brighter tomorrow.

All our manufacturing processes strictly comply with international environmental safety standards and OEKO-TEX® STANDARD 100 requirements, ensuring non-toxic, nickel-free, lead-safe, and sustainable garment hardware.
